Brandon Hadwin WN764	**FLORIDA FISH AND WILDLIFE CONSERVATION COMMISSION**

On October 29th, 2017 at approximately 2:00 P.M., I, Officer Brandon Hadwin of the Florida Fish and Wildlife Conservation Commission (FWC) was on patrol in Merritt Island. While traveling northbound on State Road 3, I observed a truck that had a trailer which was parked on the east side of State Road 3. As I passed the vehicle, I observed two male subjects pushing a small jon boat into the water. The jon boat had what appeared to be a camouflage corn feeder loaded on the center of the vessel. The vessel trailer belonged to Daniel Daniels (

On January 11th, 2018, Officer Garrett Mendelson of the FWC called me and advised that Green 1 called him and advised that at 8:30 P.M. there were some people launching a boat at the exact location as mentioned above. Green 1 advised that he was told he could not hunt out there so nobody else should be allowed to either.

The property is private property located on the east side of State Road 3 just south of Jefferson Middle School. Since a feeder was seen being brought out to the property a couple months prior, and complaints were received about people launching a vessel at 8:30 P.M., the chance of subjects freshening bait in the feeder was a possibility.

On January 12th, Officer Nicholas Bohne (FWC) and I took an airboat to the property to check for the presence of bait. Officer Bohne and I located an active camouflage feeder on the property. The feeder had recently gone off because there was a good amount of fresh corn on the river bottom, below and around the feeder. The feeder's spinner plate had fresh corn on it as well showing that the feeder was regularly maintained. There were two duck decoys within 10-15 feet of the feeder. We also located a jon boat that was tied off to a tree in a canal next to State Road 3. The vessel....., was registered to Jeffery Daniels.

On January 13th, at 2:15 A.M., Officer Mendelson and I met with United States Fish and Wildlife Service Federal Officer Phil Amoroso. We went to the property and set ourselves up in position to observe any hunters that may attempt to hunt over the bait. At 5:58 A.M., the feeder turned on spreading corn in the area. Shortly after, I heard some voices and duck decoys hitting the water. It sounded like the hunters may have been hunting on the property but were separated from the feeder by Mangroves. The only shots heard were from another private piece of land further south.

At approximately 0745, we moved closer to get a clearer visual of the area around feeder. At that time, voices were heard and were very close to the feeder. The sound of decoys splashing in the water confirmed that someone was hunting by the feeder. Using my agency issued binoculars, I located newly placed decoys that were near the feeder. A duck call was

used multiple times and numerous shots were fired. After ducks were killed, a dog was given command to retrieve the ducks and was heard jumping into and swimming in the water.

After some more observation, we decided to make contact with the subjects at approximately 9:00 A.M. Upon walking up to the subjects, Allen N Jones IV) shouted to us that this was private property as he looked over his right shoulder at the feeder. The second hunter, James Hunter Denney was not in sight at first. Mr. Jones advised that he was around the back side of the Mangroves. The two subjects were approximately 10 to 15 yards away from the feeder. When asked for hunting license, Mr. Jones advised that he didn't know the feeder was out there until they paddled into it. He also advised that he was the president of United Waterfowlers. Both subjects were asked if they had any luck. Mr. Jones said the he killed two Teal Ducks but that he didn't shoot them at the location by the feeder. I clarified asking if they shot any shots while near the feeder. Mr. Jones advised that they did not. I asked Mr. Jones if he could turn around and pick up the spent Kent shotgun shells that were floating from when he previously shot. Mr. Jones turned around, bent over, and picked up the spent shotgun shells that he shot while sitting near the feeder.

After returning to the shoreline, Officer Amoroso read Mr. Denney Miranda. Mr. Denney advised that this was his first hunt of the season and that he did not know about the feeder until they paddled into it. He advised that he knew he was in the wrong and shouldn't have hunted there. Mr. Denney advised that he did not know who placed the feeder on the property. When asked how many shots Mr. Denney took while hunting over the bait, Mr. Denney responded, "I don't know, three."

Mr. Denney was hunting with a Benelli Super Sport S/N F169198 which was seized for evidence.

I issued James Hunter Denney a criminal citation (314152C) for unlawful take of migratory game bird by the aid of baiting.

Case closed by arrest.

Synopsis

On January 11th 2018 at approximately 8:30PM, I Officer Garrett Mendelson of the Florida Fish and Wildlife Conservation Commission (FWC), received a Wildlife Alert tip about people in an area commonly known as J Pond (Jefferson's Pond) in Merritt Island which is not open to the public. I relayed the information to Officer Brandon Hadwin (FWC). On January 12th 2018, Officer Brandon Hadwin advised me that him and Officer Nicholas Bohne (FWC) located an active corn feeder with whole corn on the water bottom next to several duck blinds and decoys inside J Pond. On January 13th 2018, Officer Brandon Hadwin, United States Fish and Wildlife Service Federal Officer Phil Amoroso and I observed two individuals hunting over the active corn feeder that was previously located. The two subjects were issued a Notice to Appear for hunting Migratory Birds on a baited area. The shotguns and the harvested ducks were seized for evidence.

Incident

On January 11th 2018 at approximately 8:30PM, I Officer Garrett Mendelson of the Florida Fish and Wildlife Conservation Commission (FWC), received a Wildlife Alert tip about people in an area commonly known as J Pond (Jefferson's Pond) in Merritt Island which is not open to the public. He stated that people launched into the water off of the side of state road 3 into J Pond and the truck was left on the side of the road. He stated that it was very suspicious because it was at 8:30PM and that if he was not allowed to hunt that pond, then other people shouldn't be allowed to either. I took the information that he gave me and relayed it to Officer Brandon Hadwin (FWC). Officer Hadwin advised me that prior to the season, he observed a vessel and trailer in the same location with a corn feeder on the vessel.

On January 12th 2018, Officer Hadwin and Officer Bohne went to J Pond to try and locate any suspicious activity. Officer Hadwin advised me that they located an active corn feeder next to a duck blind and two duck decoys. He stated there was fresh corn in the feeder and there was corn in the water on the ground.

On January 13th 2018 at approximately 2:15AM, Officer Hadwin, United States Fish and Wildlife Service (USFWS) Federal Officer Phil Amoroso and I met in Merritt Island and went to the property at J Pond. I observed the corn feeder in the water with corn still on the ground below and around the feeder. There were two decoys approximately 10-15 feet from the feeder and there was also a duck blind approximately 30-40 feet from the feeder. The feeder's spinner plate had corn on it in plain view that verified active use. We sat in a concealed location near the feeder behind mangroves. At approximately 5:58AM we heard the sound of the feeder releasing more corn into the water. After the feeder turned on, I heard voices talking on the property. The voices appeared to be on the other side of the mangroves that was out of view from the feeder. I heard shooting but it did not appear to be coming from that location or from the property.

At approximately 7:45AM we decided to wade through the water closer to the feeder. We got to an area where we were able to see the feeder and still maintain cover behind mangroves. At this time I heard voices near the feeder and observed an individual and a small boat near the feeder. I then heard the sound of decoys being thrown and splashed into the water. A duck call was used several times and numerous shots were fired from this location. I observed several different groups of ducks fly into the area and heard shotgun shots. Commands were given to a dog to retrieve the ducks after they were harvested. After observing this for approximately an hour, we made contact with the hunters. One individual yelled out to us when he saw us that we were on private property. He looked directly at the feeder and then looked back towards our direction. The individual stated that he was the president of United Waterfowlers.

The individual was identified by his Florida Driver's License as:

Mr. Allen N Jones IV (known publicly as Newton Jones) was approximately 30-40 feet from the feeder. I identified myself as an FWC Officer and approached the subject. Federal Officer Amoroso located the second subject approximately the same distance from the feeder. There was a black Labrador retriever inside the blind that belonged to Mr. Newton Jones. I asked Mr. Newton Jones if he knew there was a corn feeder there. He stated he did know it was there after they rode up to it and that they should not have hunted there. He stated that he did not know there was corn in it, however, the corn was in plain sight from the blind. He also stated they were hunting on the other side of the mangroves where you can't see the feeder earlier in the morning, and then moved locations to this spot at approximately 8:00AM. He said once he saw the feeder that he got lazy and just decided to stay there and hunt. He stated that he did not shoot any ducks in this location. He had two blue-winged teal that were harvested but he stated it was from the other location earlier in the morning. There were several spent Kent brand shotgun shells located throughout the blind. The other hunter James Hunter Denney-
was questioned and checked by Officer Hadwin and Federal Officer Amoroso. We followed both hunters on their individual vessels back to the side of state road 3 where they launched earlier in the morning.

Once we arrived on land, I questioned Mr. Newton Jones again. I checked his licenses and his shotgun. His shotgun was a Beretta A391 Xtrema2 (Serial Number: AG101886). I advised Mr. Newton Jones that he appeared to be lying about some things and that honesty was the best answer. I told him that we had been inside J Pond since approximately 3:00AM and observed everything. Mr. Newton Jones hung his head and stated that he did shoot the two blue-winged teal in the spot right next to the corn feeder. I read Mr. Newton Jones his Miranda Right's from an agency issued card. He provided me with a sworn written statement and stated several times that he should be the one to get in trouble and not his friend. He said Mr. Denney followed him to this spot and he was the one who should know better. He stated he had rights to the property to hunt but he did not put the feeder on the property. He again stated they should not have hunted in that spot, that he was just trying to give his friend a good hunt and then got lazy.

Conclusion

I observed Mr. Newton Jones hunting waterfowl on a baited area in Brevard County, FL. I seized the two blue-winged teal that Mr. Newton Jones harvested and his shotgun for evidence. The two blue-winged teal were returned to the resource and the shotgun was stored into an FWC evidence facility. Mr. Newton Jones was issued a Notice to Appear **(Citation #: 307392C)** for the following charge:
