One application for Cyta...

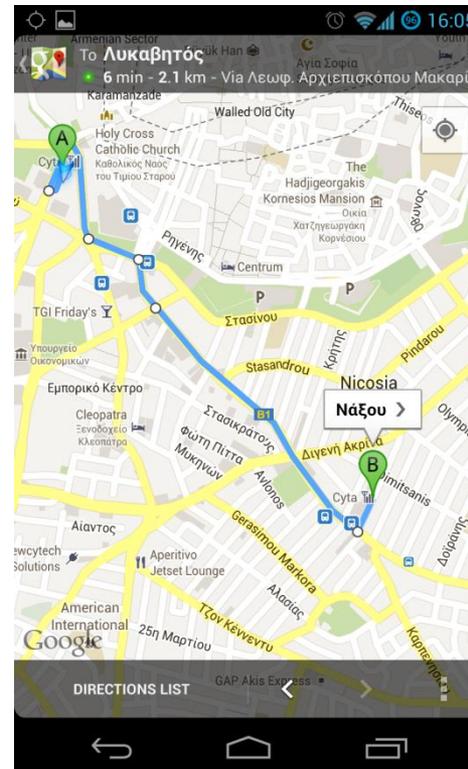

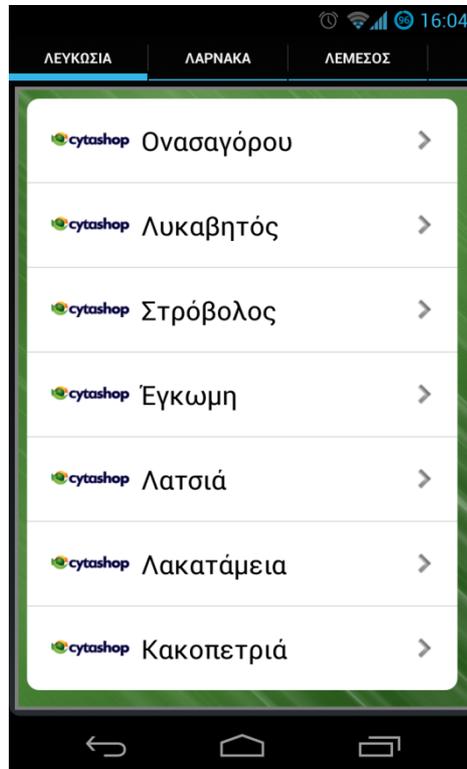

# This what Cytainfo+ looks like!

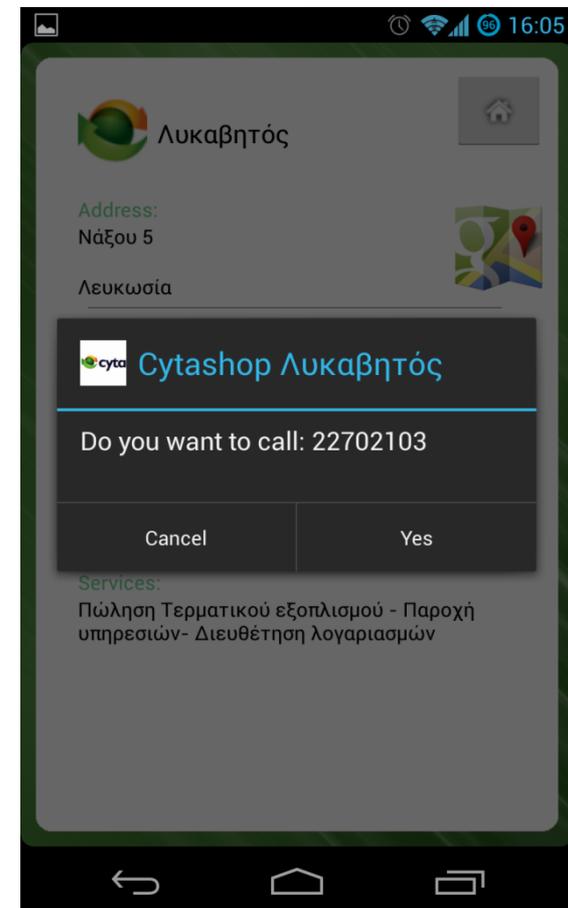

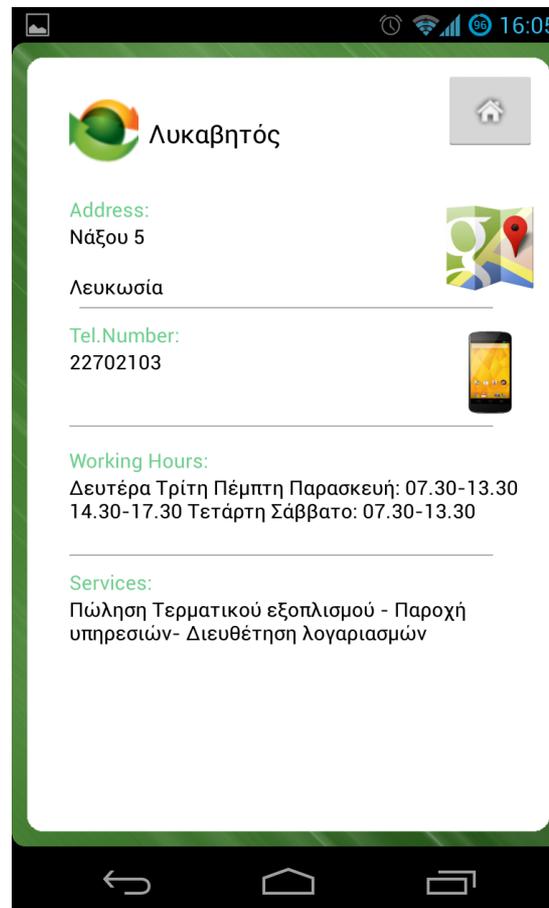

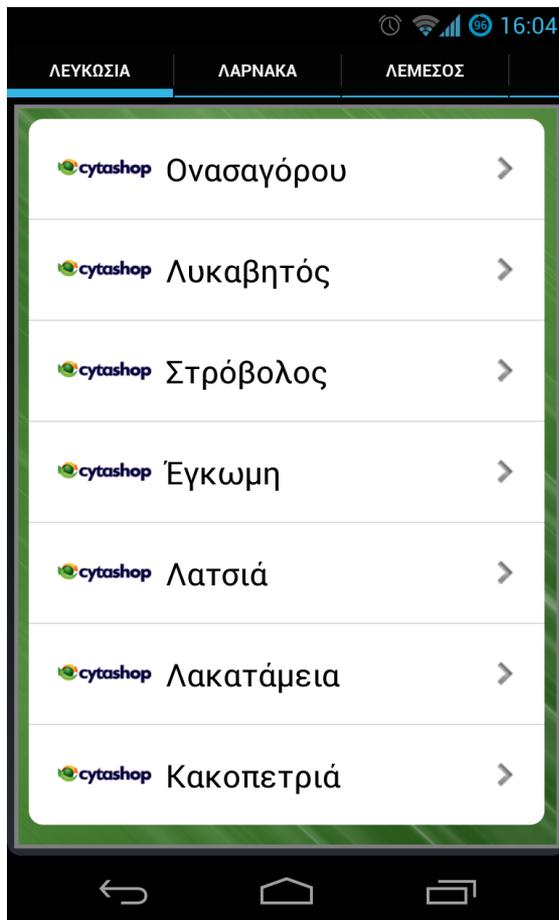

**Find Us**

By selecting the icon “Find us” you will find your nearest Cytashop, depending on your location or your city.  
In addition when you select your nearest Cytashop that you wish to visit a map will appear to guide you.

By pressing the blue arrow on the right, you will find additional information about the Cytashop you wish to visit, such as the telephone number, working hours and the distance from the area that you are.

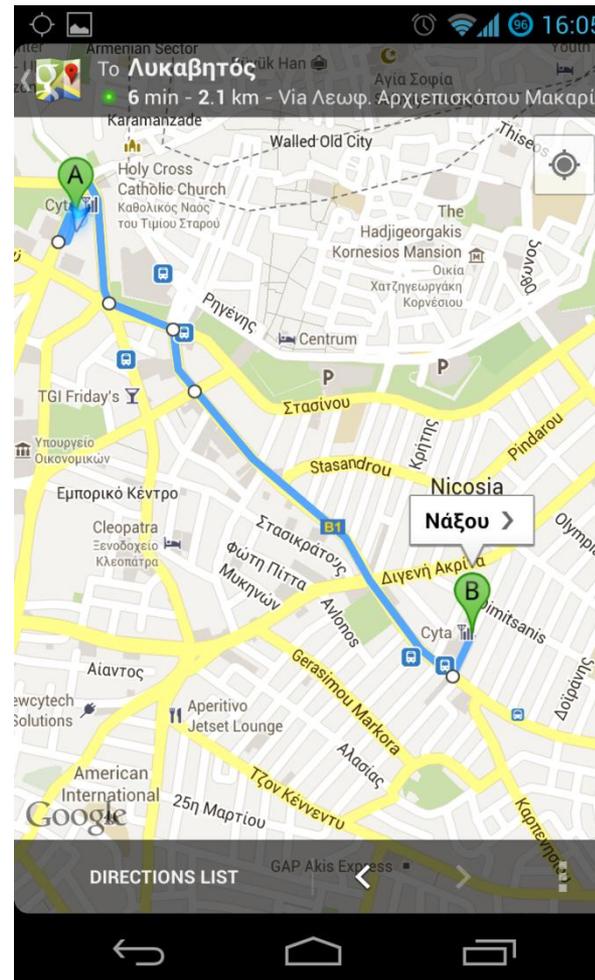

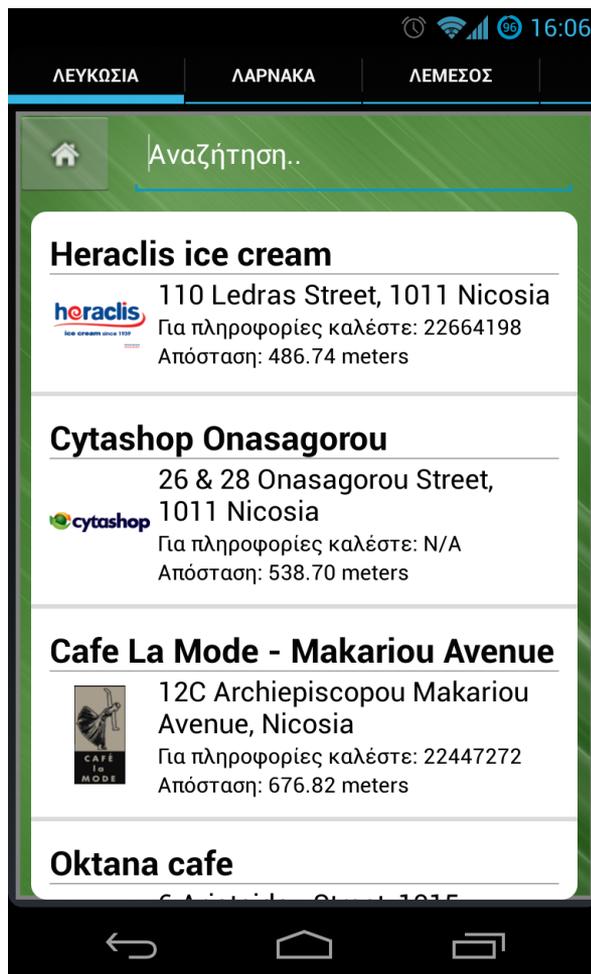

Also from the application of 'Cytainfo+' you can contact any Cytashop of your desire directly from your phone by pressing the **"Tel.Number"** tab.

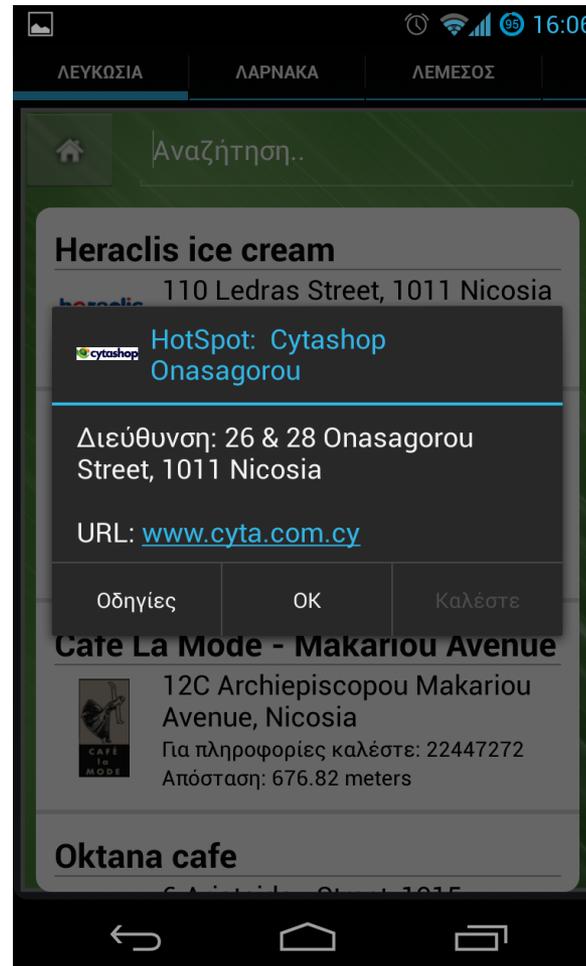

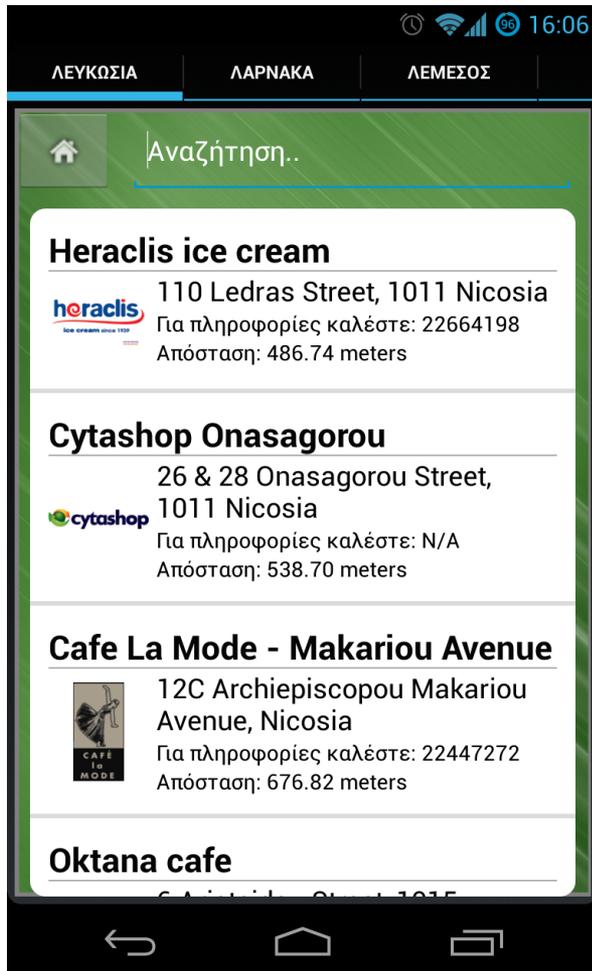

**Cytanet Wifi**

On the Cytanet Wi-fi tab you can locate the nearest available wireless signals from Cytanet. You can find this either by distance or by city. By pressing on the 'Hot Spot' that you wish, you will find it's location on the map.

On this screen you can find information about the specific Hot Spot of your choice, as well as the contact information by pressing the ‘Tel.Number’ tab.

**Cytavision**

There are four categories ( channels, sports, movies and favorites ) in this field and the user has the ability to see on his smart phone or tablet the TV program guide!

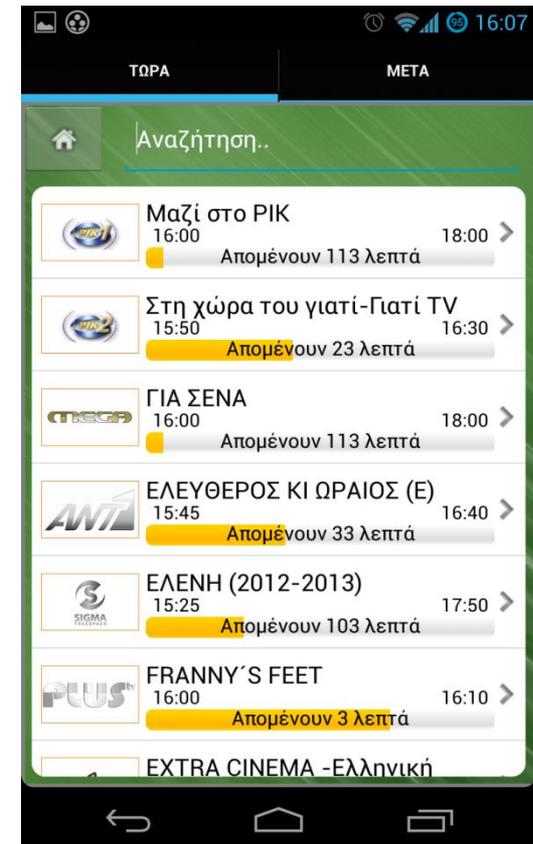

In the 'channels' field you will find two categories:

-**Now**: it includes the channel programs that are available at the specific moment on television.

-**Next**: it includes the channel programs that will be available next.

You can also see, in the progress bar, when the specific program is ending.

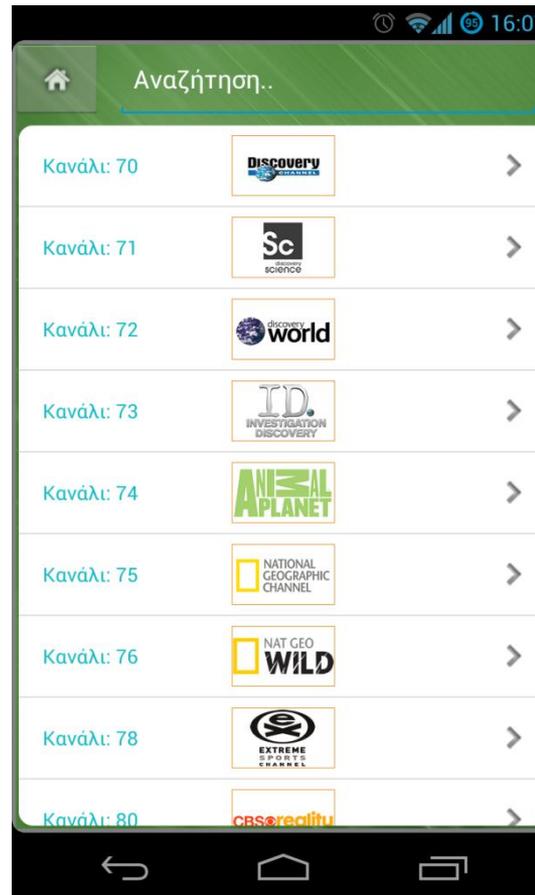

There is also the field 'Schedule', in which you will find all the Cytavision channel programs per week. You can filter the channel programs with their names, their categories or their channel number.

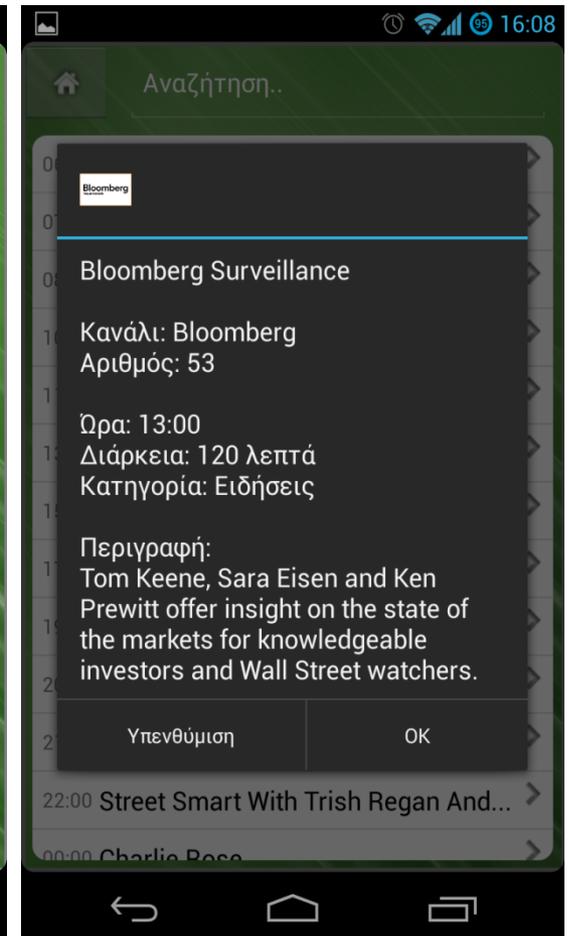

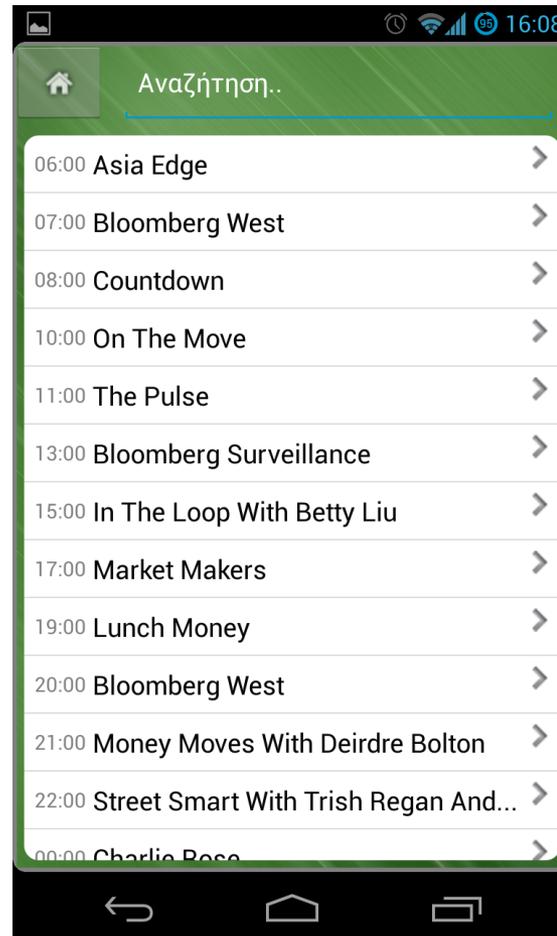

## Πρόγραμμα

Εβδομαδιαίο Πρόγραμμα Καναλιών

Choose the day and then the program that you are interested in. A detailed report for the program that you selected will appear.

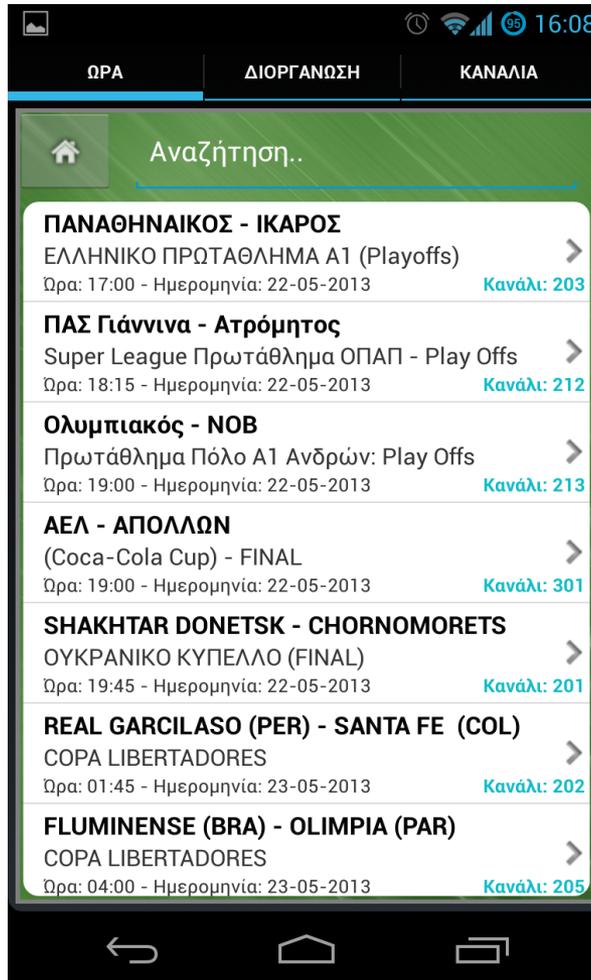

In the 'Sports' category you have the choice to find By time and By the event type the game that you wish to watch.

## Αθλητικά
