3-Way Refrigerator Gas Hose Recall

Remove the screws from the 3-way refrigerator side panel that are circled.

2. This is where to look for the gas hose in question.

This is an example of the proper installation of the gas hose with clips. The hoses do not touch the 3-way refrigerator fins.

4. This is an example of the <u>improper</u> installation of the gas hose and clips. The gas hose is rubbing against the fins of the 3-way refrigerator.

5. This is an example of the improper installation of the gas hose clips.

6. If needed, there is additional access to the 3-way refrigerator under the sink.
Remove the screws circled.

7. Example of the view with the additional access panel removed.

If upon inspection the gas hose needs to be replaced, please contact Pleasant Valley Teardrop Trailers.

You can either call 330-852-4811 ext. 327, or email warranty@nucamprv.com.
