Can you create an indicator of an indicator?

2

I would like to have the Stochastics of the $SPX on the same chart with a stock. Is there anyway to put it either on or under the stock?

[stochastics] [indicator]

I think this might help you.

Use this link to see how this chart was set up on the charting page.

http://stockcharts.com/h-sc/ui?s=GG&p=D&b=5&g=0&id=p65884244462

Note: $SPX is the default for the Price Indicator, but you could put in any symbol you like, $INDU or an individual stock.

Cheers Gord
