

Advanced Send Email Release Notes

v2.2.x.1

Features

- Now auto-fills CC field with assigned to user.
- Swapped 'Update first reponse' field to TRUE if ticket doesn't yet have a first response set, otherwise set to FALSE if already set, to help with reporting and analytics data.

Fixes

- An issue with the ASE task not working in an incident form
- An issue where ASE would give an error in change and service request forms
- An issue where attachments wouldn't send

2017/01/19 - v2.1.x.20

1. [IR59004] Advanced Send Email doesn't validate email with a dash before @

2016/09/07 - v2.0.0.15
