

Corrupt PDS user Settings

Delete the Silhouette2000 registry key.

Click on the start button and type in regedit, this will lead you to the registry editor. You will need administrator permissions to edit this.

Close Pattern Design

In the registry Editor click on HKEY_CURRENT_USER

Click on Software\Gerber

Find the Silhouette 2000 registry key and delete this. If you're not comfortable deleting it you can rename it to Silhouette-old.

Close the registry and restart Pattern Design.
