

## REQUEST FOR VMWARE TRAINING VOUCHER

Through the VMware Enterprise License Agreement (ELA), the Army is offering the VMware Training Voucher Program. The program consists of a variety of VMware product courses designed to provide Army personnel training on the management, installation and configuration of VMware products.

The VMware Training Voucher Program is available online and students have up to one year to complete each course. The corresponding course labs have limited 45 consecutive day access, based on the date that the student registers. Each course is estimated to require a week to complete.

Each course prepares the student to take the VMware VCP Certification Test. The VCP test vouchers will be distributed *separately* after the completion of the online course and end of course assessment.

To obtain a single use training course voucher, please provide the information requested below. Only one request form for one course per student can be processed at a time. Access to training is limited, so your government civilian/military supervisor's approval is required.

Please send the completed form to: [armyelapso@vmware.com](mailto:armyelapso@vmware.com). If you have additional questions, please contact the CHES Help Desk at (888) 232-4405 or VMware at (571) 375-3448.

COURSE OFFERINGS	SELECT ONLY ONE
VMware vSphere: Install, Configure, Manage [V6]	
VMware vSphere: Optimize and Scale [V6]	
VMware vSphere: What's New [V5.5 to V6]
