The power of Three

In fairy tales and folk tales, nearly anything can come in groups of threes. For instance, three can be the number of children a woodcutter has, or how many animals are present in a group, such as the [Three Little Pigs](#). Three can also be the number of magical gifts received, such as those by Cinderella: a pair of glass shoes, horses and a coachmen who were formerly rodents, and a pumpkin that becomes a carriage. In [Maid Maleen](#), the main character speaks to three things: a nettle-plant, a foot-bridge, and a church door, while in [East of the Sun, West of the Moon](#), the girl in search of her husband receives three gifts. As you can see, three is just as common in fairy tales as towers and enchanted animals!

Also there are many book series out there that are trilogies - three books to complete the series.

Like Lord of the Rings -

The Fellowship of the Ring
The two Towers
The Return of the King
also the Hunger games trilogy:
The Hunger Games
Catching Fire
Mockingjay
and His Dark Materials
Northern Lights
The Subtle Knife
The Amber Spyglass

of course sometimes because of popularity an author will write additional books but these above were all written and intended as a three story arc/trilogy

It was also the number of time:

Past, Present & Future.

Birth, Life & Death.

'the three little pigs'

'hat-trick'

'rain, hail or shine'

'three coins in a fountain'

'three blind mice'

'three trimesters in pregnancy'

'three parts of an atom'

'The Truth, The Whole Truth and Nothing but the Truth'

'ready, aim, fire'

'Paper, Rock, Scissors'

'On Your mark, Get Set, Go'

'plant, animal or mineral'

'three great pyramids of Giza'

Wow! You've really made me think about this.
