VLOOKUP issues in SmartSheet

I am trying to look up reference from a list in another sheet.

Component Code 🔒	Components
WH	Wheel

Components in this dropdown are identical to those in the table below.

Component Code 🔒	Components			nent Tvn	o D

`=VLOOKUP(Components@row, {CQ Descriptors - Part Numbers Range 1}, 2)`

Components	Component Code
Wheel	WH
Wing	WG
Linkage	LG
Drawbar	DB
Machine	MA
Centre	CE
Attachment	AT
Wear Parts	WP

Components are identical to those in the dropdown above.

Results:

Why do the first two work and not the others?

Component Code 🔒	Components
WH	Wheel

Component Code 🔒	Components
WG	Wing

Component Code 🔒	Components
#NO MATCH	Linkage

Component Code 🔒	Components
#NO MATCH	Drawbar

Component Code 🔒	Components
#NO MATCH	Wear Parts

Component Code 🔒	Components
#NO MATCH	Attachment

Component Code 🔒	Components
#NO MATCH	Machine
