

Generating Smartsheet Forms through Adobe Acrobat: How to trouble shoot Inconsistent Font Sizes

The Problem: The Generated form looked like this:

Font size in the fields were inconsistent.

The Solution:

Create a new fillable form in In Adobe Acrobat Pro:

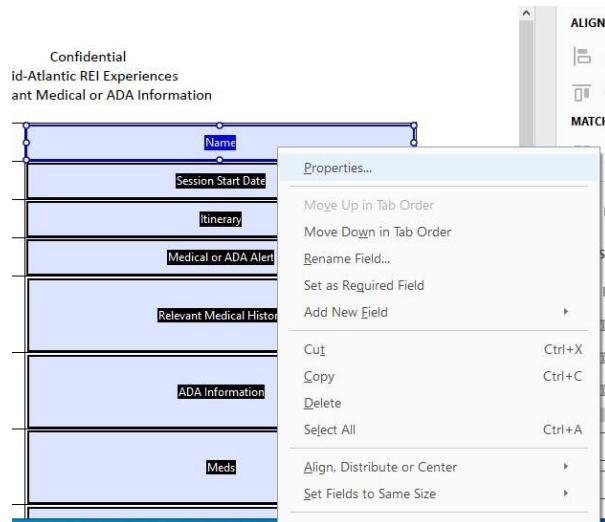

1. Select Tools from Ribbon
2. Select Prepare Form

Name	TEST TEST
Session Start Date	04/08/23
Itinerary	Hotline: 425-300-3017
Medical or ADA Alert	Medical
Relevant Medical History	TEST

Once the form is prepared:

3. Hover over each fillable box / field and right click

4. Select Properties

5. Select Appearance

6. Select and change Font Size and Font from the dropdown lists.

7. Close

8. Save the form

9. In Smartsheet: Create new mapping and build your form.
