	Piriformis Stretch	3/leg	20s	N/A	
	Seated Hamstring Stretch	3	20s	N/A	
	Internal R/C Stretch	2/arm	20s	N/A	

Notes:

- 1) Perform a warm-up BEFORE and stretching AFTER each workout.
- 2) Perform all movements in the order they appear.
- 3) All movements are meant to be performed in "superset" fashion. Perform both movements in the superset, then take the prescribed rest.
- 4) Perform a minimum of 3, and a maximum of 5 supersets.
- 5) Attempt to achieve the high-end of the rep/time range whenever possible (while maintaining good technique).
- 6) Rest 30-60 seconds between supersets.
- 7) Perform ALL supersets in a pairing before moving to the next pair of super-setted exercises.
- 8) Exercises should be performed as quickly as possible, maintaining proper technique.
- 9) If resistance (other than body weight) is used for a given exercise, select a weight that allows you to move through the range of motion quickly with good technique. When this resistance is no longer a challenge, increase the weight to the next increment.
