**Complaint****Additional Info :**

I request the officer to first have a look at this complaint where I have talked about how these hackers were playing with sexual rumors about me on Instagram and reddit. Now I will explain everything about how I feel my PC and phones are compromised. So basically I don't have any idea how these hackers got access to my PC in first place but I do have an idea that they are messing up with fire rate or fps of games in my PC. Tbh its not a big deal because I don't play games quite often since I am usually sick but now I seem to have recovered or atleast recovered enough to take courage to write this complaint. But it is a big deal since these hackers are also the one who have been manipulating my friends into thinking that I am a women molester . I reinstalled my PC and even my android phones but still somehow they get access to my phone and PC. I had made a complaint to my internet security forum but they also couldn't help with the malware. Also I feel I have cameras and microphones installed in my home. I request officer to please reply back and look into it.
