TRAKTOR KONTROL X1 MK2	✔
TRAKTOR KONTROL Z1	✔
TRAKTOR KONTROL Z2	✔

Other Native Instruments software and hardware products are not officially supported on **macOS 13 Ventura**.

Important Notes:

- All products listed here require the latest update from Native Access, as well as the latest version of **macOS 13 (Ventura)**.
- macOS 10.15 (Catalina) terminated the operability of some legacy NI hardware. The same applies to macOS 11 (Big Sur), macOS 12 (Monterey), and macOS 13 (Ventura). This includes **MASCHINE MK1**, **MASCHINE MIKRO MK1**, **AUDIO 2 / 4 / 8 DJ**, **TRAKTOR AUDIO 2 MK1**, and **TRAKTOR KONTROL S2 / S4 / X1 MK1**.

For Apple Silicon Users:

Please find the latest info about compatibility with **Apple Silicon** in [this article](#).

We will continue to conduct systematic tests with macOS 13 Ventura to offer full compatibility with our software and hardware products as soon as possible.
