Join our interactive workshop to learn exactly what connected planning is and how it can transform the way you collaborate around your plans.

Bring your laptop and get hands on.

In just a few hours, you will learn how to:

- **Build** a business model from scratch in Anaplan
- **Reduce** your planning processes from weeks and months down to days and hours
- **Improve** transparency by involving more staff and business stakeholders in the planning process

In addition to the time at the workshop you'll have another four weeks of free access to Anaplan.
