4.0 Service Pack 2 Highlights

Service Pack 2 – April Release

- Continued focus on Quality and Performance
- Usability improvements based on CTP Feedback
- Customize KPI Dashboards in WebShell
- Constituent tile for Major Giving

Join us for the April Spotlight to get a
deeper dive into SP2!

BBCRM Guiding Principles

SYNERGY

- Make BBCRM innovative, consistent, and intelligent
- Leverage 30 years of fundraising experience and all of the innovation emerging across Blackbaud
- Create a more seamless experience with extensions like Payments & Analytics

QUALITY

- Insist on stability, upgradeability, and dependability
- Don't break things
- Make it easier to upgrade to new releases
- Increase innovation built on quality foundation

EFFICIENCY

- Ensure BBCRM is cost-effective, powerful, and responsive
- Make BBCRM less expensive to set up, configure, and operate

INNOVATION

- Deliver a product that is flexible, inclusive, and contemporary
- Partner with Industry Leaders to drive capabilities expansion
- Work to make the hosting experience as flexible as the on premise experience

2015 BBCRM Initiatives

Credit Card Account Updates

Card holders experience changes to their credit card account information for many reasons:

- updated expiration dates
- replacements for lost, stolen, or reissued credit cards
- closed credit card accounts
- bank mergers

When account information changes, cardholders often do not contact your organization, resulting in:

- declined transactions
- operational expenses
- recurring gift cancellations

Name and Address Formats

- We sometimes handle names the same when they are actually different based on their location

Ordered alphabetically (US/CA):

Andy Van Slyke (*American Baseball Player*)
Art Vandelay (*Fictional Latex Mogul*)
Dick Van Dyke (*American Actor*)
Jan van de Velde (*Dutch Painter*)
Jean van de Velde (*French Golfer*)
John Vande Velde (*American Cyclist*)

Ordered alphabetically (NL):

Art Vandelay (*Fictional Latex Mogul*)
Dick Van Dyke (*American Actor*)
Andy Van Slyke (*American Baseball Player*)
John Vande Velde (*American Cyclist*)
Jean van de Velde (*French Golfer*)
Jan van de Velde (*Dutch Painter*)

- We sometimes handle the addresses the same when they are different based on the country

Day of Event Check-In

- Check-In today is very manual, lots of duplicate entry
- Event managers are using spreadsheets or 3rd party systems that don't integrate with BBCRM for check-in
- Different processes to register and take payments or donations

The screenshot shows the Blackbaud CRM mobile app interface for event check-in. At the top, the status bar shows 'Carrier', '3:52 PM', and '100%' battery. The app header includes a back arrow, 'Events', the event name 'Class of 1976 Reunion Dinner', and an 'Event Settings' link. Below the header, there are two progress bars: 'Attendance 16.7%' (1 of 6) and 'Capacity 2.4%' (6 of 250). The main section is titled 'Event Registrants' with a search bar and a list of registrants. The registrants are grouped by letter: B (Kalani Bentley, Maggie Bentley, Meredith Bentley), C (Emilio Cortez), and E (Dustin Ewald, Layla Ewald). Maggie Bentley is highlighted in blue. To the right of the list, there is a 'Check In' button and a 'Registered' status. Below the button, there are fields for 'Seat' (---) and 'Payment' (Paid). A blue circle with a question mark is visible in the bottom right corner.

Event Registrants	Check In
B	
Kalani Bentley	
Maggie Bentley	Registered
Meredith Bentley	
C	
Emilio Cortez	
E	
Dustin Ewald	
Layla Ewald	

Fundraiser on the Go

- Fundraisers spend most of the day away from their desks
- Fundraisers use their phones or iPads to seek information about their prospects and donors
- Fundraisers need to document their visits with prospects

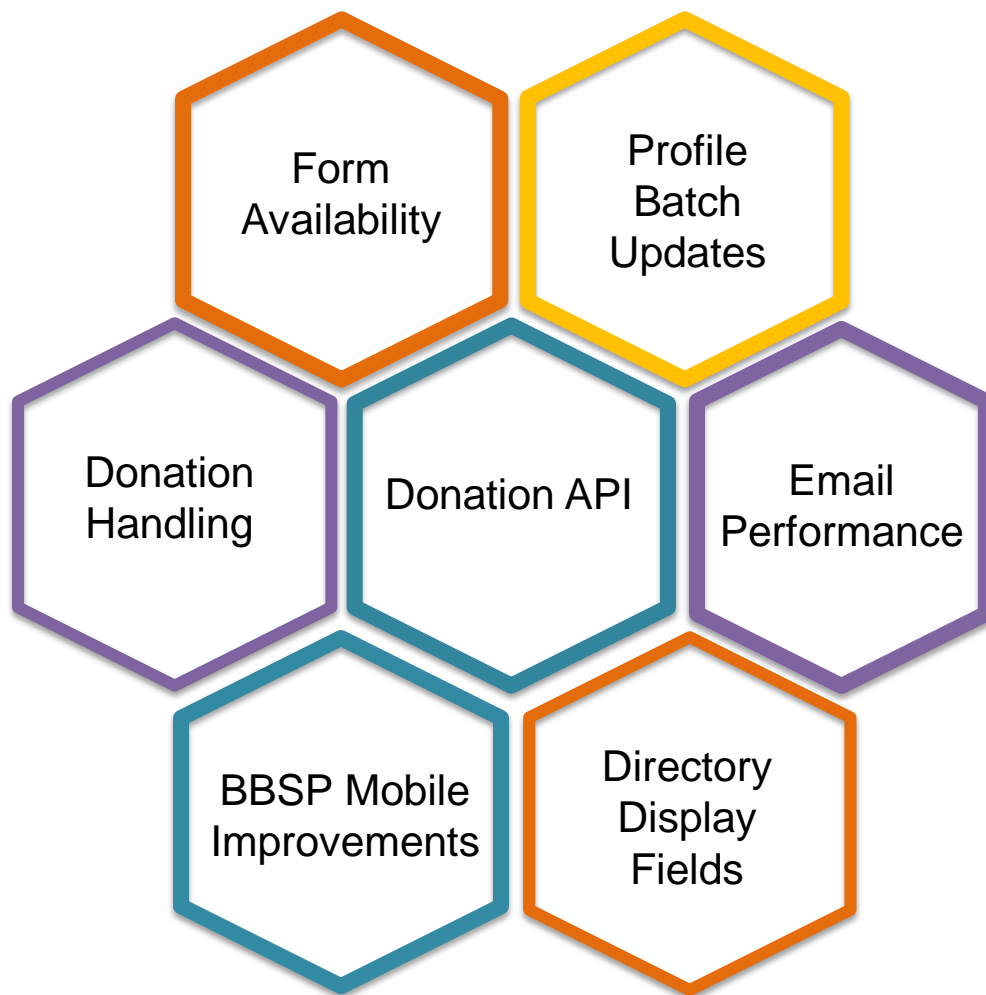

Online Challenges

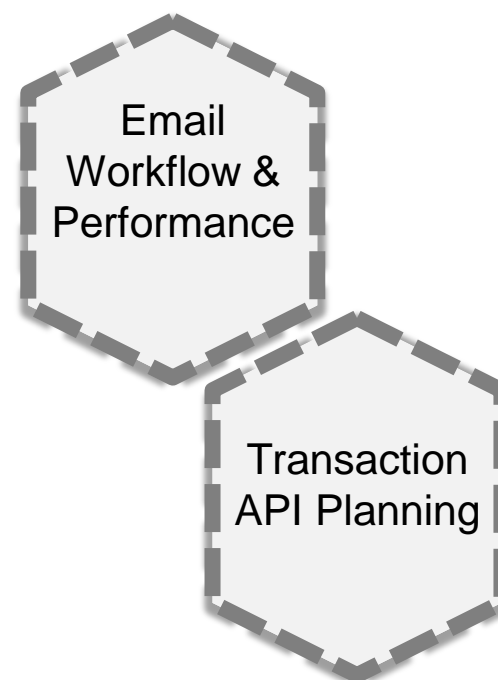

- Processing transactions should be as easy for online as it is for offline
- Like other data, email data also takes up room in the database
- Online users don't want to login
- More flexibility building online forms

5.0 BBIS Initiatives

Discovery Items

BBCRM/LO Integration

- Released in January
- Integrates the leading CRM and Online Marketing platforms in the industry (Blackbaud CRM + Luminate Online)
- Applies industry experience resulting from work with tens of thousands of clients
- Creates an integration framework to support shared needs
- Delivers flexibility for client-specific configuration
- Seamless API-based exchange
- Gives you control to manage your business processes

BBCRM/LO Integrated Solution
